Client Snapshot

A client who only had Part A and Part B did not possess a Part D drug plan or any supplemental coverage due to financial constraints. He reached out to us for assistance, as he needed to schedule a same-day surgery that would be billed under Part B. Understandably, he was anxious about the costs associated with this procedure.

Additionally, he would face a Part D penalty, which will increase his costs.

Aging Allies heard his story and successfully assisted him in alleviating his Part D penalty, enabling him to enroll in a Medicare Advantage Plan. Now, he can afford the surgery he needs and receive the healthcare he deserves!
